

New Section Timing of Compliance with These Regulations. Any Chapter 3 Permit-to-Construct issued for facilities otherwise subject to this Chapter prior to the effective date of these regulations shall remain in effect, so long as the facility is not modified, and any facility authorized under the Division's "General Permit to Construct, Install, Modify or Operate a Small Wastewater Facility", may remain covered under that permit. Any individual permit issued under Chapter 3 prior to the effective date of these regulations fulfills all of the requirements to obtain a permit under this chapter. New construction following the effective date of this regulation must obtain individual permits to construct.
