Big Valley and Crossed Arrows Improvement District (BVCA)
P.O. Box 33
Meeteetse, WY 82433

June 2nd 2016

Dear Sirs,

This is a request is for a hearing concerning Docket # 5430-14. We are not in agreement with with your assumption that BVCA is responsible for any sewer activity anywhere.

Attached is a letter that BVCA sent to DEQ dated 8/3/2012 responding to a similar letter from DEQ.

Please allow at least 30 days in response time for any correspondences since our our By-Laws do not allow BVCA to conduct any business outside of our scheduled meeting or a called special meeting which takes time to establish. BVCA also requests any meeting or hearing by by tele conference since our budget does not include travel.

Sincerely yours,

BVCA Board

Auggie Wayne McBroom

08/03/2012

Ms. Shreve,

Enclosed is a copy of the Big Valley and Crossed Arrows Improvement District's By-Laws and 2011 Consumer Confidence Report.

Please note that BVCA is only responsible for potable water under the By-Laws. We enclosed the CCR Report to show we are doing all of the tri-annual and monthly testing required by the EPA. We have had no problems with BVCA's water quality.

Recently Hannes Stueckler of your office came to our location to help us with an upgrade project we are working on and made no mention of cross-contamination concerns even though in our conversation he mentioned that the sewer system for the Crossed Arrows mobile home park had failed from its inception. This suggests to me the original engineers and planners are responsible for the failed system not someone who knows how many years down the road.

Respectfully yours,

BVCA Board

Auggie Wayne McBroom
