Alan:

I have not received the timeline summary from Andrew yet, he may have it if you give him a call. This is the email and my response.

Kyle

Hi Kyle, thanks, we'll look forward to your reply. A number of landowners in the area are just wanting basic information about the mine given the many changes in plans and would like to ask DEQ questions about what is in the permit application, look at maps, etc. We're not asking for interpretations about what any of that means or anything more than what is already part of the public record. Hope that helps to clarify this request.

Thanks, Shannon

Dear Jill

I am traveling this week and Alan is also out until next week I will discuss with him first and check with our counsel to see when in the process a meeting would be appropriate in consideration of the pending actions

Thank you. Kyle

Dear Kyle, I understand the request below was forwarded to you. Can you please let us know when the DEQ staff who are familiar with the Brook Mine Ramaco permit can meet with nearby landowners and answer questions about the proposed permit? Thanks for your attention. Best Regards, Jill Morrison

Dear Mark and BJ,

We would like to request a meeting with the LQD staff who have worked on the Brook Mine Ramaco permit with nearby landowners. There are many questions from landowners regarding the proposed and pending permit. Can you provide us with some possible dates for a meeting in the near future. We would be happy to get a meeting room in Ranchester to host this meeting so landowners can understand more about the pending permit. We would hope that you could meet in the early evening to accommodate working people. Thanks,

Jill Morrison
