

EXHIBIT “A”

February 5, 2018

Dear Sir or Madam:

Mr. Clayton McGuire was under my care at Wyoming Medical Center from January 30 through February 5, 2018. He has a severe infection requiring several weeks of intravenous antibiotics. I understand he lives in a very rural area of Wyoming and it would be a considerable and taxing effort for him to leave his home for any reason other than medical care.

Yours Very Truly,

A handwritten signature in black ink, appearing to read 'T. Olson', with a large, sweeping flourish at the end.

Timothy E. Olson, MD, MS, FACP
Hospital Medicine Physician
Wyoming Medical Center
