**RE: JTL Group, Inc. dba Knife River, Burnett Pit Permit Application, TFN 6 2/292**

Dear Mr. Wentland:

JTL Group, Inc. has become aware of a minor and perhaps insignificant error in our permit application for the Burnett Pit, TFN 6 2/292. However, we do not desire to have any incorrect information in the permit, once approved. To this end we are requesting that the permit application be placed back into the technical review phase by DEQ LQD. The corrected revisions will be submitted to DEQ LQD for consideration and review. We do understand that this will require the permit application to be deemed **Technically Adequate** by DEQ LQD once again. When this takes place JTL Group, Inc. will work with DEQ LQD to have the required public notice published in a newspaper of general circulation and will comply with all other additional requirements that pertain to this matter.

Regards,

Shane Swilling
