**DOCKET NO. 20-4801**

**ORDER**

As of July 13, 2020 there has been a growth in Covid-19 cases and that growth appears to be one that will continue through the foreseeable future absent new restrictions imposed by the State.

Due to these increases and the requirement by the state as to the size of gatherings within enclosed areas the Council has determined it is in the best interest of the Council members and the public who attend Council meetings and hearings that the August 19 2020 meeting shall be held via Zoom.

While this may impose difficulties for the parties in this hearing the risk of a Covid-19 infection requires that the Council take steps to protect the parties, the Council and the public.

THEREFORE, the above entitled matter shall be held via Zoom video conference. The times shall remain the same. This hearing shall begin at 4:00 p.m. on August 19, 2020.

THEREFORE, if the parties have any questions regarding the process for holding the hearing via Zoom or complications they are concerned about shall contact the Council offices at 307-777-7260.

FURTHER, the parties shall notify the Council staff no later than 12:00 noon on August 12, 2020 all emails of parties and/or witnesses that will need to be provided the link that will allow them to join the meeting.

SO ORDERED THIS 13<sup>th</sup> day of July, 2020.

Shane True, Hearing Officer  
Environmental Quality Council
