Notice of Publication

Permit Application No. A0008234

Dear Ms. Elsom:

The Division of Air Quality has completed its initial evaluation of your permit application to modify the Embar 1 Tank Battery (F004573) by updating the equipment list, with two smokeless flares to control volatile organic compound and hazardous air pollutant emissions associated with the oil tanks and active produced water tanks, located in the NE1/4SW1/4 of Section 12, T47N, R100W, approximately seven (7) miles south-southeast of Meeteetse, in Park County, Wyoming.

A copy of the public notice and of our evaluation are available online at <https://openair.wyo.gov>, utilizing facility ID F004573 and permit number P0027433 under permits. I would recommend that you review the proposed permit conditions associated with the Division's proposed approval. The Public Notice will appear in the April 30, 2020 issue of the Cody Enterprise, Cody, Wyoming.

A copy of our evaluation and of your permit application will be kept on file for a thirty (30) day public inspection and comment period. At the end of this period, we will consider all comments made concerning your application and a final decision will be made on your application.

Per Chapter 6, Section 2(o) of the Wyoming Air Quality Standards & Regulations an initial billing is attached for the costs incurred by the Department in reviewing the application. Payment of the initial fee is required prior to permit issuance. An additional fee and any adjustments required to the initial fee shall be made upon permit issuance to cover any additional costs associated with final permit issuance, including costs of public notice, holding public hearings, reviewing public comments and final issuance of permit.

If you should have any questions concerning this matter, please contact the reviewing engineer shown on the technical analysis at (307) 777-7391.

Sincerely,

Kari Kivisto
 NSR Administrative Assistant
