DOCKET 22-2801

PROCEDURAL ORDER

After review of the record and on the Hearing officers own motion the following procedures shall be followed at the final hearing on June 14, 2022 at 1:00 in Room 5, Capitol Extension, State Capitol, Cheyenne WY 82002.

Each party shall have 10 minutes for opening argument and 5 minutes for closing arguments. The order of presentation of opening and closing arguments will be the Petitioner first, second will be DEQ and Asphalt Specialties Co. Inc will go third.

The petitioner, Carol Rowe, has the burden of proof. The Council has found that having the DEQ go first in the presentation of evidence gives the Council a better and more efficient understanding of the evidence. Therefore the presentation of evidence shall be as follows:

DEQ will go first after the opening arguments. The Petitioner, Carol Rowe will do her presentation of evidence second. The permittee, Asphalt Specialties Co. Inc will go last. DEQ will then have an opportunity to present any evidence that they believe is necessary to rebut any evidence presented by the Petitioner.

Each witness shall be subject to direct, cross and redirect examination. There will not be any re-cross examination.

At the conclusion of the evidence the Council will take a break and allow the parties 15 minutes to prepare for closing arguments. The Petitioner may reserve time from her closing time to use as rebuttal argument after Asphalt Specialties Co. Inc has concluded their closing argument.

If the parties need any special equipment set up for use during the hearing please contact Joe Girardin at the EQC offices. His number is 307-777-7170 and his email is joe.girardin@wyo.gov.

DATED this 3rd day of June 2022.

A handwritten signature in blue ink that reads "Steve Lenz". The signature is written in a cursive style with a horizontal line underneath it.
