GOVERNOR'S OFFICE

The Department of Environmental Quality, Land Quality Division (LQD) is proposing to amend Coal Chapter 10, Coal Exploration and Chapter 13, Surface Coal Mining Permit Revisions. The proposed revisions are intended to comply with legislative changes regarding permit fees and public involvement in permitting actions, and address WY Attorney General's statutory review comments. Specific information on the proposed revisions can be found in the Statement of Reasons for Coal Chapter 10 and 13.

The LQD Advisory Board reviewed the rules during meetings held on August 19, 2021 and December 9, 2021. The Advisory Board recommended the rules proceed to the Environmental Quality Council for formal rulemaking. The proposed rules are not expected to be controversial. The Attorney General's Office has reviewed the rules for statutory authority and agreed they could proceed. The LQD is requesting to proceed with formal rulemaking with this rule package.
