

**Proposed Revisions to Solid Waste Rules, Chapter 3: Industrial Landfill Regulations,  
Solid Waste Permitting and Corrective Action Program**

**Informal Public Comment Period**

**Response to Comments Received From February 4, 2022 through March 7, 2022**

April 27, 2022

Prepared by:  
Wyoming Department of Environmental Quality  
Solid and Hazardous Waste Division  
Solid Waste Permitting and Corrective Action Program

## **Response to comments on Chapter 3: Industrial Landfill Regulations.**

**Commenter:** Wyoming Solid Waste & Recycling Association (WSWRA), Travis Evans, WSWRA President

### **General Comment**

**WSWRA:** “WSWRA appreciates the opportunity to provide informal comments related to the proposed changes in the Solid Waste Rule Chapter 3: Industrial Landfill Regulations. WSWRA has reviewed the proposed changes to Chapter 3 and we find the proposed rules reduce redundancy and ensures consistency between other chapters of SWR. Additionally, the proposed rules replace eight-year permit renewal term with a lifetime permit term, thus eliminating the need for operators to prepare permit renewal applications every 8 years. The WSWRA Board supports the proposed Chapter 3 rule issued for public comment on February 4, 2022.”

**Department Response:** The Wyoming Department of Environmental Quality appreciates WSWRA’s support of the proposed revisions to the Solid Waste Rules Chapter 3 and looks forward to working with WSWRA on future solid waste management topics.
