

**BEFORE THE
ENVIRONMENTAL QUALITY COUNCIL
STATE OF WYOMING**

**IN THE MATTER OF REVISIONS) STATEMENT OF
TO CHAPTER 3) PRINCIPAL REASONS
OF THE SOLID WASTE RULES) FOR ADOPTION**

The Environmental Quality Council, pursuant to the authority vested in it by Wyoming Statute § 35-11-112(a)(i), has adopted revisions to Wyoming Solid Waste Rule Chapter 3, Industrial Landfill Regulations.

The Department of Environmental Quality, Solid and Hazardous Waste Division proposed to revise Chapter 3 of the Solid Waste Rules (SWR) to remove redundant and irrelevant language, correct grammar, restructure passages for clarity, provide consistency with other chapters of the SWR, and format the rule to meet the Secretary of State requirements. In addition, the Wyoming Department Environmental Quality proposed updates to the permit terms, as well as the standards for location, design and construction, operating, monitoring, recordkeeping, reporting, closure and post-closure, and corrective action.

The Council finds that these regulations are reasonable and necessary to accomplish the policy and purpose of the Act as stated in Wyoming Statute § 35-11-102, and have been promulgated in accordance with the rulemaking provisions of the Wyoming Administrative Procedure Act.

Dated this 15th day of November, 2022.
