Land Quality Division
Attn. Brian Goodnough
200 West 17th Street
Cheyenne, WY 82002

RE: Randy Stevens issue on property with Shear Piling to protect surrounding property.

Dear Mr. Goodnough

Enclosed are the most recent photos taken of the Shear Piling Wall showing the effect of the rain and weather on destabilizing an already destabilized wall. Every time it rains or snows the moisture erodes the destabilized Shear Piling Wall.

This wall would not have been destabilized if Mr. Randy Stevens would not have mined outside of his mining permit boundaries.

Since the Department of Environmental Quality, Land Division, are the State Governmental Department that issued Mr. Steven's permit, they are also the enforcing agent.

Since this is a serious safety issue, the Town is asking for all the help you can to correct this situation.

Sincerely

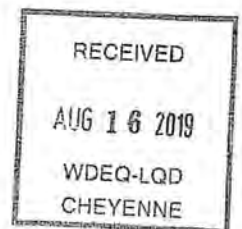

JOHN ZEIGER

Mayor John Zeiger
