At this time, DEQ has not discovered any records pertaining to the request. Therefore, it has been closed.

External Message Requester + Staff
Hello Kevin,

Water Quality Division did not identify any pertinent records for this request. Per our staff, there is no 401 certification associated with this project and there is no USACE 404 permit nexus. This suggests that the USACE determined there were no federally jurisdictional wetlands in the project area or the activity would not impact a jurisdictional aquatic resource and therefore require a 404 permit.

At this time, we will close this request.

Exhibit C

Additionally, we are working through request 23-601 that you submitted, and will have those records to you as soon as possible.

Have a great weekend!

-Ross

Requester + Staff

Thank you for submitting your Public Records Request. Some of the records you have requested might be in active use or archives. We will begin assembling and reviewing documents responsive to your request and will let you know when they are available for your review.

Also, required under W.S. 16-3-103(j)(ii), the Wyoming Department of Environmental Quality has adopted the Department of Administration and Information's uniform rules pertaining to procedures, fees, costs, and charges for inspecting, copying, and producing public records. DEQ's Public Records Rule can be [found here](#) and the Administration and Information Uniform Rule can be [found here](#). As always, these rules are located on the Administrative Rules website at rules.wyo.gov. Please contact wystate@wyo.gov if you have any additional questions.
