DOCKET NUMBER: 3961-06

NOTICE OF VIOLATION

AND

ORDER

NOTICE IS HEREBY GIVEN THAT:

1. Brittain & Campbell is the registered owner of a contaminated site, Number 0-001562, located at 855 CY Avenue, Casper, Wyoming. The tanks were removed from the ground on August 13, 2004, with a DEQ inspector on site. The site was found to be contaminated. The responsibility for Contaminated Site Fees rests with the present landowner. On May 8, 2006, and again on August 17, 2006, Brittain & Campbell was invoiced for Contaminated Site Fees for this site. Contaminated Site Fees for fiscal years 2006 and 2007 in the amount of four hundred dollars (\$400.00) remain unpaid. While the Contaminated Site Fees are voluntary, failure to pay these fees makes the site ineligible for the Corrective Action Account.
2. Brittain & Campbell has failed to pay voluntary Contaminated Site Fees.
3. This site was a known contaminated site. Brittain & Campbell has not performed the remediation actions required under Chapter 17, Section 24. Failing to perform the required remediation actions leaves a very definite threat to the public health and safety and groundwater contamination. Brittain & Campbell is required to clean up this site since he has, through failure to pay Contaminated Site Fees, made contaminated site 0-001562 ineligible for cleanup under the Corrective Action Account. On October 19, 2006 the department finished remediation on this site and issued a clean closure letter.
4. W.S. 35-11-1424(f), states: "If, after due diligence, no owner or operator can be found, a contaminated site shall be placed on the priority list in appropriate rank with other sites. If an owner or operator which is not in compliance and the owner or operator refuses to comply with subsection (d) of this section is discovered, that site shall be considered ineligible for use of corrective action account monies and shall be treated as defined in subsection (g) of this section."

W.S. 35-11-1424(g), states: "The department may, by an action brought by the attorney general against an owner or operator, recover reasonable and necessary expenses incurred by the department in taking corrective action. These recoverable expenses include but are not limited to the costs of investigating a release, administrative costs and reasonable attorney fees. The department's certification of expenses is prima facie evidence the expenses are reasonable and necessary. Expenses recovered under this section shall be deposited in the corrective action account unless otherwise required by state or federal law. The department may sue for recovery of expenses only if: (i) The owner or operator has failed to take the actions required for that site under subsection (d) of this section; or (ii) The owner or operator had tank insurance for that site at the time of the release. However, no such recovery under this subsection may exceed the limits or coverage of the insurance policy in question."

5. By failing to pay Contaminated Site Fees, Brittain & Campbell has made the contaminated site, Number 0-001562, ineligible for the Corrective Action Account. By failing to pay the contaminated site fees, Brittain & Campbell are liable for cost recovery under W.S. 35-11-1424(g).
6. This Notice is being sent to you pursuant to W.S. 35-11-701(c)(i), which requires that in any case of the failure to correct or remedy an alleged violation, the director of the Department of Environmental Quality shall cause a written notice to be issued and served upon the person alleged to be responsible.
