**Subject: Transmittal for Medicine Bow Fuel & Power  
Updated Pages to Air Quality Permit Application (AP-5873)**

Dear Mr. Schlichtemeier:

Please find enclosed eight (8) copies of revision pages for the Medicine Bow Fuel & Power PSD Air Quality Permit Application. Please replace the pages included in your copies of the December 31, 2007 revised permit application with these pages. A summary sheet detailing all the changes on a page-by-page basis is included as the first sheet in each set, so that you can easily find the revised pages and note the specific edits that were made.

These revision pages reflect changes in near-field modeling results stemming from correction of pressure values for the years 2000 and 2003, as requested by Josh Nall. The changes in ambient air concentrations are minor. Tables 6.10 through 6.15 and Tables 6.17 through 6.19 were revised. In addition, Figures 6.8 through 6.10 were revised.

Also included in this package are two (2) CD-ROMs containing the revised modeling files.

If you have any questions or need additional information or copies please feel free to call me at (303) 740-3824.

Sincerely,

Susan Bassett  
URS Denver Air Team Leader
