Docket No. 09-5801

**RESPONSE OF EASTERN LARAMIE COUNTY SOLID WASTE
DISPOSAL DISTRICT TO THE OBJECTION FILED BY ROBERT AND
BARBARA MUSGRAVE**

COMES NOW, the Eastern Laramie County Solid Waste Disposal District, (“District”), and for its response to the objection filed by Robert and Barbara Musgrave (“Musgraves”) states the following. The District adopts the numerical sequence used in the objection.

1. The District admits that Musgraves purchased an amount of pasture land lying east of the landfill in July of 1993, and that purchase was made from Robert and Yvonne Steege. The District also admits that some of the property occupied by the landfill was once owned by the Steeges. The District denies all other averments and inferences and specifically denies that the property purchased by Musgraves borders the eastern boundary of the landfill, and affirmatively asserts that between the Musgrave property and the landfill property, there exists an 80 ft. public right-of-way owned by Laramie County.

2. The District is without knowledge or information sufficient to form a belief as to the truth or falsity of the averments contained in ¶ 2 and, therefore, they are denied. However, the District admits that Attachment #1 is appended to the Objection.

3. The District admits that the landfill has constructed certain appurtenances in the area designated as Area #1, and that Attachment #2 is appended to the Objection. The District further admits that the application implies at "1.4 Legal Description", that the landfill is approximately 45 ft. over the eastern boundary on property owned by Robert Musgrave. The District affirmatively asserts, however, that this statement is incorrect and conflicts with Drawing #1 of the application, which map clearly indicates, both in the legend and on the map the existence of the 80 ft. public right-of-way owned by Laramie County. The District further affirmatively asserts that any encroachment by the landfill would be onto the 80 ft. public right-of-way owned by Laramie County and is not an encroachment onto property owned by the Musgraves. The Musgrave property is at least 40' east of the section line between sections 28 and 29. The landfill litter fence is not more than 25' east of the section line at any point and, therefore, is fifteen feet short of any property that could be claimed by the Musgraves. All other averments in ¶ 3 are denied.

4. The District admits that Areas 4, 5, and 6 are included in the proposed expansion and that Attachments 4, 5, and 6 are appended to the Objection. All other averments contained in ¶ 4 are denied.

5. The District admits that it has entered into discussions with Musgraves and has attempted to satisfy the concerns raised by Musgraves and to explain that the property line isn't where he thinks it is but without success. The District also admits that Attachment #7 is

appended to the Objection. The District denies and rejects all other averments, implications and inferences contained in ¶ 5.

6. The District denies the averments contained in ¶ 6, and affirmatively states that DEQ inspection records confirm that the management of litter and all other aspects of the landfill is in conformity with established DEQ rules and regulations. The District admits that Attachment #8 is appended to the Musgrave Objection.

AFFIRMATIVE DEFENSES AND RESPONSE

By way of additional defense, clarification, and affirmative response to the Objection filed by the Musgraves, the District states as follows:

1. At the regular meeting of the Board of County Commissioners for Laramie County, on December 4, 1923, the County Commissioners adopted a resolution establishing certain public highways and designating certain properties for that purpose. A copy of the duly recorded minutes of said meeting are attached hereto as Exhibit A.

2. Under the paragraph entitled Extension of C.R. 4-34, the Resolution designates an 80 ft. right-of-way beginning at the SE corner of Section 29-15-62, thence north between Sections 28 and 29.

3. Drawing 1 of the Application makes reference to this 80 ft. public right-of-way reserved by Laramie County and depicts it clearly on the map.

4. Upon information and belief, the District asserts that its operations may encroach approximately 65 ft. into the public right-of-way reserved by Laramie County, but its operations and fence are still well short of any property that could legitimately be claimed by Musgraves.

5. Musgraves, therefore, are wholly incorrect in their assertions that they are the owners of property up to the section line since the right-of-way reserved to Laramie County occupies 40 ft. on either side of the section line between Sections 28 and 29.

6. The existence of the public right-of-way is further confirmed by the Record of Survey attached hereto as Exhibit B conducted by Jeffrey B. Jones and filed with the Laramie County Clerk and Register of Deeds in Book 1301, Page 16 on April 1, 1991. Said Record of Survey clearly depicts the 80 ft. road right-of-way owned by Laramie County, and existing as 40 ft. on either side of the center line, which is the section line between Sections 28 and 29.

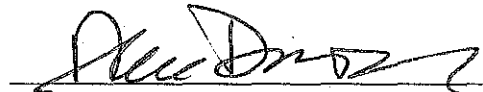

7. The existence of this 80 ft. right-of-way, which property is owned by Laramie County, is a reality that is completely ignored by the Musgraves in the Objection and is fatal to their claims.

Based upon the above and foregoing statements of fact, and supporting documentation, Mr. Musgrave lacks standing to object to the location of any of the landfill since he is not an agent of Laramie County, and his property is in no way occupied by landfill operations. Moreover, his complaints regarding the management of the landfill are not supported by the records of the DEQ. His objection, therefore, should be dismissed.
