RE: Croell Redi-Mix, Inc. Closing Statement – EQC Docket No. 09-4806

To The Board Members Of The Environmental Quality Council:

I began the process of permitting my pit over a year and a half ago. It has always been my intension to comply with any governing agency regarding all aspects of the proposed pit. Not only do I intend to fully comply with any affiliated governing agency, I have also made it clear to the community of crook county that they can contact me at any time to discuss any concerns my ideas could present. I feel that I have been an asset to the Crook County community.

It is my pleasure to be able to explain my intensions to your committee and I appreciate the interest the public has had in these types of changes. Thank you for your time and consideration and I hope that our case has been presented well enough for you to understand my intensions with the proposed pit. I would like to reassure you that I would never allow any part of my company to denigrate the environment of our great state.

Sincerely,

Roger Croell
Croell Redi-Mix, Inc. Permittee
