

## PUBLIC NOTICE

In accordance with the provisions of the Wyoming Environmental Quality Act and Chapter 1, Section 1(f) of the Solid Waste Rules and Regulations, Anchor Environmental has submitted a SW Chapter 6 permit application for a new solid waste management facility called the Anchor Environmental Treatment, Transfer and Recycling Facility.

The facility is located in Natrona County just west of the City of Mills, Wyoming. More specifically, this facility is located in Section 2, T33N, R80W 6<sup>th</sup> PM, Natrona County, Wyoming. The facility provides for the transfer/treatment/recycling of used drilling fluid and sump wastes which have been generated within Wyoming, Colorado, Montana, Idaho, Nebraska, North Dakota and South Dakota. The total volumetric capacity of this facility is estimated to be approximately 84,000 gallons of liquid waste and 8,600 cubic yards of solids.

The Department of Environmental Quality, Solid and Hazardous Waste Division (DEQ) has reviewed the application and determined that it is generally complete and suitable for publication. The DEQ's solid waste rules, in Chapter 1, Section 2 (b)(ii), require that the applicant must provide public notice that a proposed permit has been issued and inform the public that there is an opportunity to file comments on the proposed permit before it is issued in final form. The notice is also required to indicate that the public may file formal written objections to issuance of a final permit. This publication provides notice of those opportunities.

Copies of the permit application, the DEQ's reviews of the application, and the proposed permit can be viewed at DEQ's Casper office (125 N. Durbin, Suite 100), at the Natrona County Public Library (307 East 2<sup>nd</sup> St, Casper, WY), or the Natrona County Clerk's Office (200 N. Center St, Casper, WY).

Any interested person has the right to either: provide comments on the proposed permit, which DEQ will consider prior to taking final action on the permit application, or file formal written objections to the proposed permit. The period for providing comments, or filing formal written objections to the proposed permit, shall begin on November 11, 2013 and end on December 18, 2013. Any comments or formal written objections must be received by 5:00 PM on the last day of the notice period. Comments or formal objections must be submitted in writing to the Department of Environmental Quality, Todd Parfitt, Director, 122 West 25<sup>th</sup> Street, Cheyenne, WY 82002. Formal objections must be accompanied by a statement of the facts upon which the objection is based. If substantial written objections are filed, a contested case hearing will be held by the Environmental Quality Council.

In accordance with Americans With Disabilities Act, special assistance or alternative formats will be made available upon request for individuals with disabilities.
