Dear Administrator:

Re: Permit for Canyon Concrete Sand & Gravel LTD, LLC  
Application for proposed mining permit

We own the property on the North side of the proposed gravel pit property.

We raise alfalfa hay and the dust and dirt from the pit operation will cover our hay crop, causing it to be non desirable for animal consumption. I also live on that property and would not be able to open my windows in the summer. The dust the dirt and noise would be absolutely terrible. I'm an elderly person and should not breathe the polluted air this would cause. This is a ranch, I work outdoors. Need I say more.

Not only is this a concern to me, but I find it very hard to understand why a beautiful city like Cody, would want visitors to drive by something like this as they enter our lovely city. An absolute eyesore! We have beautiful views of the mountains as you drive into Cody and ranching on both sides of highway 120. And then a gravel pit and rock crusher? What a first impression that would be.

Thank you for viewing my concerns,

Barbara J. Wilkerson, Land Owner
