RE: Canyon Concrete, Application for Gravel Mining Permit, TFN 5 3/313

Dear: Mr. and Mrs. Robretson,

I am writing in receipt of your written comments pertaining to Canyon Concrete's proposed gravel mine in Cody, Wyoming. I have reviewed several written comment letters, all with similar concerns.

One letter requested a contested case hearing in front of the Environmental Quality Council (EQC). The EQC is moving forward with scheduling the hearing, which you are welcome to attend, as a member of the public. Please monitor the EQC's website, <a href="http://deq.state.wy.us/eqc/index.asp">http://deq.state.wy.us/eqc/index.asp</a> for posting of the hearing details. At the conclusion of the hearing process, I will send you a copy of the EQC's Findings of Fact, which will likely address your concerns.

I appreciate your participation in our permitting process.

Sincerely,

Nancy Nuttbrock
