Petition for Hearing
Notice of Violation
Docket No. 1093-82

Dear Mr. Sundin:

On June 14, 1982 Mobil Oil Corporation received a Notice of Violation (Docket No. 1093-82) issued pursuant to W.S. 35-11-701(b) alleging a violation of Air Quality Permit CT-208. As stated in the Notice the ORDER stipulated thereunder is "final and binding unless, not later than ten (10) days after the day the order is served, it is appealed by filing a written request for a hearing before the Environmental Quality Council." By notice dated December 31, 1981 Mobil Oil Corporation assigned Permit CT-208 to its wholly owned subsidiary, Mobil Coal Producing Inc. Mobil Oil Corporation, by and through its subsidiary, Mobil Coal Producing Inc., hereby requests a hearing on the above referenced Notice of Violation and asks that this request be entered into the record of proceedings on this case.

Mobil contends that the facts recited in the Notice do not support the allegations of violation, the issuance of the Notice or the order to submit a permit application to modify our Air Quality Permit CT-208. Further, we believe that the circumstances relating to this matter were not fully defined by the Notice. Therefore, a hearing before the Council will provide us an opportunity to fully document the facts pertinent to the alleged violations.

It is requested that further contacts regarding this matter be directed to W. G. Boettger, Manager, Environmental Affairs at the letterhead address or

telephone (303) 628-6176. All correspondence of record should also be directed to our attorneys:

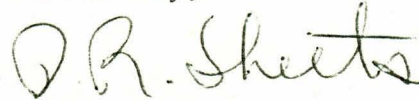

P. B. Walker
