

J. Brubridge

Mr. Terri A. Lorenzon: DIRECTOR

Sept. 24, 2003

I have determined that after reading the Department of Environmental Quality Rules of Practice and procedure book, and my work schedule that I do not want a hearing on my objections, but that my comments will remain a matter of record in the DEQ files, and that my concerns will be considered when a decision on issuance of Guernsey Stone Company's permit is discussed.

Sincerely,
Charles B. Sturdivant
