RE: In Regard to the Hogadon Ski Area Permit Protest

When the comment period in the Hogadon discharge permit matter closed, and we received the transcript, I transmitted all of the information received to Ardelle for your decision. Because this protest to the discharge permit is a unique proceeding, the Council will be having no further involvement in the matter. Should your decision on the issuance of the permit be protested, then the Council will again be involved. Until that time, the matter is in your hands.
