

April 29, 2013

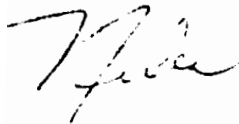

Padlock Ranch
Trey Patterson
8420 US Highway 14
Ranchester, WY 82839

Trey,

Ramaco will be entering onto the Padlock lands to initiate vegetation baseline surveys beginning April 25, 2013. Vehicles will stay on existing roads or trails as weather and conditions allow. The seasonal vegetation survey will end September 1, 2013, with cage enclosures removed.

B.K.S. Environmental Associates will be conducting the survey with Brenda Schladweiler on site.

In the event we need another access key, I will be in touch.
