

## Shannon Anderson

Comments of Powder River Basin Resource Council members:

Please comply with Wyoming Environmental Quality Act's core mandate of open records to make all agency information available to the public without charging access fees.

Reject the proposed rules because they do not comply with DEQ's mandates to records open and available to the public. Are you trying to hide something?

Sincerely,  
Evelyn and Marvin Griffin  
P.O. Box 21  
Pavillion, Wyoming 82523

As public agencies records must be kept transparent. Government agencies that work behind the curtains are not responsible agencies. If the public cannot be aware of actions taken there is no accountability. One of the basic tenants of democracy is public accountability — keep records open and available!
