

Proposed Solid Waste Rule, Chapter 3: Industrial Landfills, Solid Waste Permitting and Corrective Action Program

Response to Comments Received during the June 28, 2022 Water and Waste Advisory Board Meeting and Public Comment Period.

August 5, 2022

Prepared by:
Wyoming Department of Environmental Quality
Solid and Hazardous Waste Division
Solid Waste Permitting and Corrective Action Program

Response to Comments on Chapter 3: Industrial Landfills

Commenter: Water and Waste Advisory Board (WWAB)

General.

WWAB Comment: The WWAB recommended grammar corrections throughout the chapter.

Department Response: The Solid & Hazardous Waste Division edited the grammar in the chapter as discussed during the June 28, 2022 WWAB meeting.

Section 8. Operating Standards.

WWAB Comment: The WWAB recommended clarifying the training program standard to “successfully complete a training program” in Section 8(a)(ii).

Department Response: The Solid & Hazardous Waste Division evaluated the WWAB’s recommendation and added clarifying language to Section 8(a)(iii).

WWAB Comment: The WWAB recommended removing the phrase, “allowed to be”, from the groundwater contact standard in Section 8(v).

Department Response: The Solid & Hazardous Waste Division evaluated the WWAB’s recommendation and removed the suggested phrase from Section 8(v).

Section 13. Standards for Corrective Action.

WWAB Comment: The WWAB recommended removing “including a consideration of the technical and economic capability” from factors considered when selecting the corrective action remedy in Section 13(b)(iii)(D).

Department Response: The Solid & Hazardous Waste Division evaluated the WWAB’s recommendation and is not proposing any changes. After consultation with the Wyoming Attorney General’s office, removing the above referenced language would not allow the Department to consider technical and economic capabilities when selecting a corrective action remedy.

No additional public comments were submitted during the June 13, 2022 WWAB Meeting and Public Comment Period.

Proposed Solid Waste Rule Chapter 3
