**REQUEST FOR INTERIM MINE STABILIZATION STATUS
PERMIT #12RD
GENERAL CHEMICAL (SODA ASH) PARTNERS**

Dear Mark,

General Chemical (Soda Ash) Partners ("GCSAP") respectfully requests a third five year interim stabilization status for its' solution mine site located in Sweetwater County, Wyoming. Enclosed are three (3) copies of the request for interim stabilization and a site map. Missing from the package are landowner consents. The site has two landowners, the Bureau of Land Management and Uinta Development Corporation. I have received the consent from Uinta Development Corporation and am waiting for the consent from the BLM. I should have it the first part of the week of October 4, 1999 and will send both consents under separate cover.

Upon approval by your office, GCSAP is prepared to provide the public notice and to make a presentation at a public hearing.

If you have any questions or need additional information, please don't hesitate to call.

Respectfully submitted,

David H. Scriven, P.E.
President
